

**Bufs**

Eisinger's buffs are made of the finest quality cotton muslin with leather reinforced center holes for mounting on our threaded spindles. The larger the buff, the faster the cut. A loosely stitched buff (1 row), is softest for final roughing. Treated buffs are stiffer for use in cut down (tripoli). Razor edge buffs are for hard to reach areas and midget buffs are meant for use with hand bench motors.

**Eisinger White Buffs**

Cotton muslin with leather reinforced hole.
